

## EMISSION CLASSIFICATION OF BUILDING MATERIALS

### SIA Silk Plaster Group

The classification working group set up by the Building Information Foundation RTS has approved the following product:

**Silk Plaster Master, Silk Plaster Optima, Silk Plaster Standard, Silk Plaster Relief, Silk Plaster Prestige, Silk Plaster Silk Mono, Silk Plaster Provence, Silk Plaster Ecodecor, Silk Plaster Victoria, Silk Plaster Airline, Silk Plaster Premium, Silk Plaster West, Silk Plaster South, Silk Plaster Nord, Silk Plaster East**

as belonging to emission class M1 for building materials.

The classification is valid until 19.2.2017.

SIA Silk Plaster Group has the right to equip its classified products with the classification mark and to use this classification mark when marketing these products.

The decision is in line with the requirements laid down in the Classification of Indoor Climate 2008 and the Classification of Building Materials: General Instructions.
